

2019 ECMC Foundation Fellow Postsecondary CTE Research Bridging the Gaps in Postsecondary Career and Technical Education Research

Sponsored by ECMC Foundation

Jeffrey D. Holmes, Ed.D.
**Postsecondary Career and Technical Education Research
Postdoctoral Research Fellow**

Belk Center
for Community College
Leadership and Research

Bio. Jeffrey D. Holmes serves as a Dean for Los Angeles City College. As a graduate of the Community College Leadership (CCLP) Doctoral Program at the University of Texas at Austin, Dr. Holmes, has over two decades of leadership experience in higher education at four- and two-year institutions, and has served on California State advisory Committees assisting in the formation policy recommendations for disabilities and workforce related issues. Dr. Holmes has advised many institutions utilizing his expertise in ADA/ 504, pathways and career education. As a former tenure track faculty member, and administrative executive, Dr. Holmes has keynoted at national and regional conferences, while providing administrative leadership for Americans with Disabilities Act and the integration of policy planning, curriculum development, facilities planning, resource allocation, and accessibility for faculty, staff, and students through support, career and instructional programs. His presentations, technical reports, lectures, and books follow his research agenda towards success outcomes, and pathway navigation, The Guide to Transition Students with Disabilities, and Broken Toys: The NCAA Community College Male Athlete have helped a number of high schools and colleges serve students towards achievement results.

Project. Disabled Student(s) Program and Services (DSPS) Success Factors for Career Education in California community colleges. California Community Colleges must optimize how students with disabilities are assisted. Colleges are faced with a new California legislation that affects funding, curriculum, student equity and student success. This project will examine how poverty cycles are broken by credentialing students with disabilities, and preparing them for work through California community college Career Education and Instructional programs.

Research Sponsor: Mary Gallagher, MBA, Ph.D.
President
Los Angeles City College

The Program

Fellows will be part of a community that participates in two national research training institutes, research methods webinars, works with CTE research mentors, and conducts postsecondary CTE research.

Applications for the 2020 Postsecondary CTE Research Fellows will be available July 1st, 2019 and due December 1st, 2019.
